Pau Fandos Gorris

Backend developer · Java and Spring

linkedin.com/in/paufandos paufandos.com/en/ github.com/paufandos

I develop backends with Java and Spring and interfaces with Angular. At Cygnus Source, I maintain production applications and develop a platform that connects AI assistants to business systems. I study Computer Engineering at the UOC.

WORK EXPERIENCE

Cygnus Source

Software developer

July 2025 - present · Madrid

I maintain production applications and develop an AI assistant platform. I work on conversational assistants, MCP clients and servers, and microservices behind a gateway, using Java and Spring. I also develop the Angular frontend.

Java 21 · Spring Boot · Spring AI · Spring Security · WebFlux · Spring Cloud Gateway · Oracle · Elasticsearch · Angular

Sopra Steria

Software developer

March 2023 - July 2025 · Valencia

I developed microservices with Java and Spring Boot, integrated events and worked with relational databases. I also developed with Angular and applied TDD in Scrum and Kanban teams.

Java · Kotlin · Spring Boot · Camunda · Axon · RabbitMQ · Apache Artemis · Oracle SQL · PostgreSQL · Jenkins · Angular

Imagina IT Solutions

Software developer

March 2021 - August 2022 · Sueca · Internship

I developed websites with PHP, JavaScript and MySQL. I also assembled, diagnosed and repaired computers and provided customer support.

PHP · MySQL · JavaScript · Bootstrap · WordPress

PROJECTS

fandOS

I develop this app to organise the day on iPhone, iPad and Mac. It works offline and syncs with my API. An AI assistant queries and modifies data through its MCP server. Private code.

Swift · SwiftUI · TypeScript · Cloudflare Workers · D1 · MCP

agent-kit

I built a JavaScript CLI for working with Claude Code and Codex. It reads their usage, recommends how to assign tasks and lets sessions reserve their part on a local board. Codex runs save their state and a handoff so they can resume. Private code.

JavaScript · Node.js · Claude Code · Codex

Adivina la palabra

Final Web Application Development (DAW) project, completed during my internship at Sopra Steria from March to June 2023. The backend picks the secret word, checks each guess and returns the hints.

Java · Spring Boot · Hibernate · MySQL · Angular · TypeScript

EDUCATION

Bachelor's Degree in Computer Engineering

Universitat Oberta de Catalunya (UOC)

September 2024 - present · In progress

Higher Diploma in Web Application Development

CIPFP Mislata

September 2021 - June 2023 · Final mark: 9.43/10

Diploma in Computer Systems and Networks

IES Blasco Ibáñez

September 2019 - June 2021 · Final mark: 9.67/10

AWARDS

Gold · CV Skills 2023

I won gold in web development at the Valencian Community championship.

Spain Skills 2024

I represented the Valencian Community in web development at the national championship.

SKILLS

Backend and AI

Java · Spring Boot · Spring AI · MCP · Spring Security · WebFlux

Frontend

Angular · TypeScript · Tailwind CSS

Data and processes

Oracle · PostgreSQL · MySQL · Elasticsearch · Flowable · Camunda

Architecture and testing

Hexagonal architecture · TDD · Vitest · Playwright

Development with agents

Claude Code · Codex · OpenSpec

LANGUAGES

Spanish and Valencian: native.

English: limited working proficiency.
